

An Introduction to the Series

BILL & MELINDA
GATES *foundation*

December 17, 2015
11:00 am Pacific Time

Your meeting control panel is located on the right side of your screen and it will minimize if you are not using it.

In the **Audio** section of your Control Panel you can select to listen to the webinar through your computer speakers or the telephone. Your audio line will be muted for the entire presentation.

Type a question for the presenters in your **Questions** section at any time during the webinar and we'll address them at the end the during the Q&A session.

**LET'S
TALK**

LET'S PRESENT

Vicki Phillips
Director of Education,
College Ready

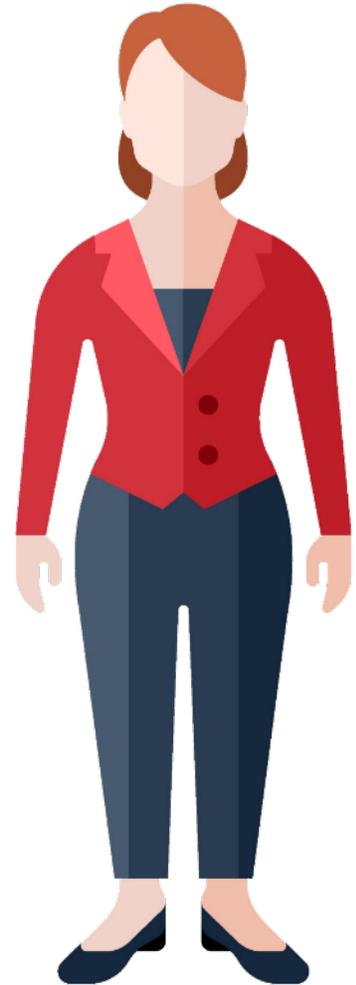

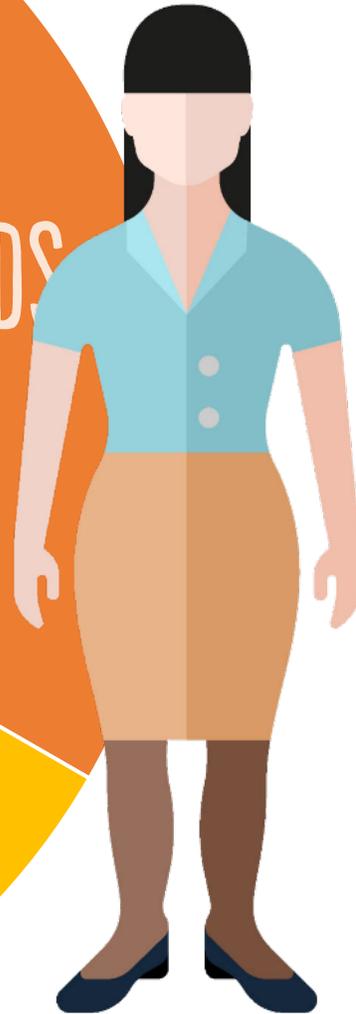

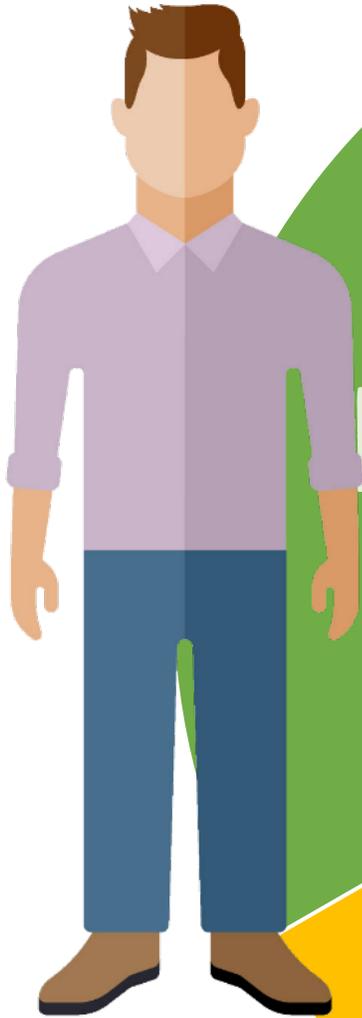

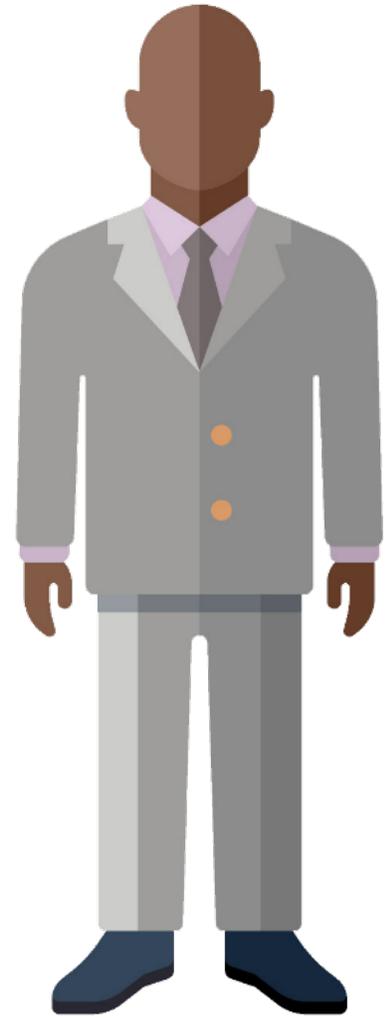

Lynn Olson
Deputy Director,
College Ready

Wendy Sauer
Senior Program Officer,
College Ready

TEACHERS

TOOLS

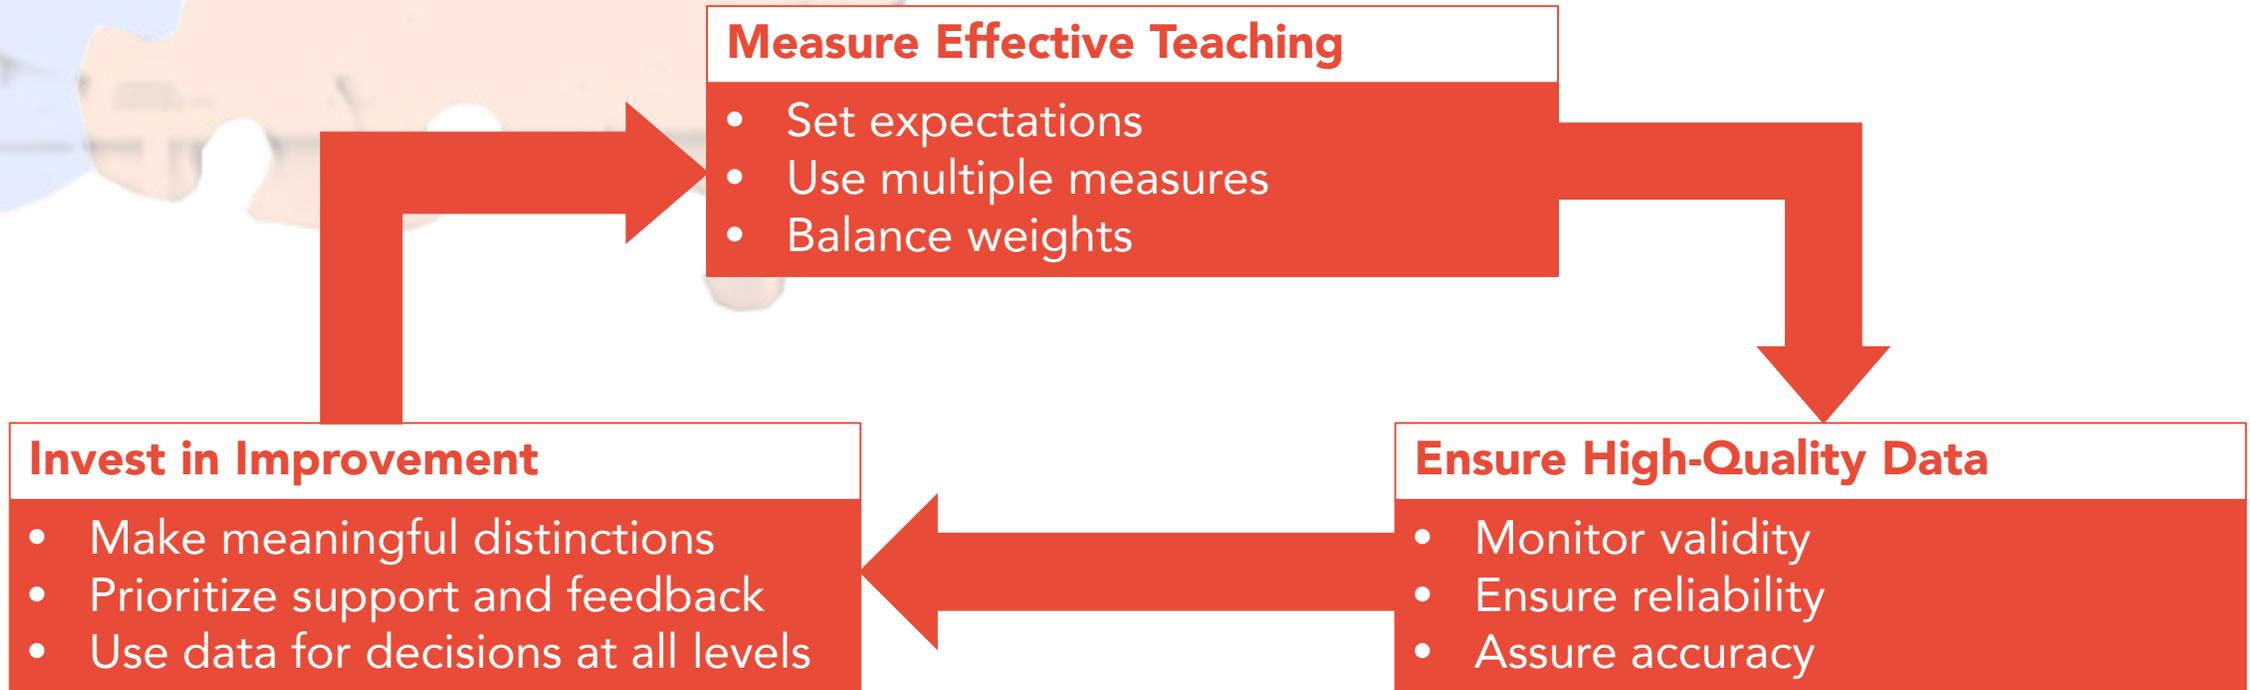

The Role of Standards

- **A+ Nations:** Coherent, Focused, Rigorous, for All Students
- **90 percent** overlap Common Core math and composite of the math standards in A+ nations
- **AIR study KY:** 11th graders who experienced 1-2 years of CCSS did better on the ACT than a similar group who took the ACT before the standards' introduction
- **Majority of teachers** support the standards

Teaching and Learning for
**COLLEGE
READINESS**

The Components of High-Quality Evaluations

The Role of Feedback

- **MET: 9 Principles:** The Basis for High-Quality Feedback
- **DC IMPACT program:** improved performance by low-performing teachers and highly effective teachers
- **Chicago:** Larger student achievement gains in schools whose principals received robust observer training, with even greater gains in the second year
- **Tennessee:** pilot program that matches teacher rated low in a particular area of instruction with teacher who demonstrated success in that area increased teacher evaluation scores and student achievement across whole schools

LDC and MDC Tools

These tools help teaching to become more rigorous, more engaging and effective.

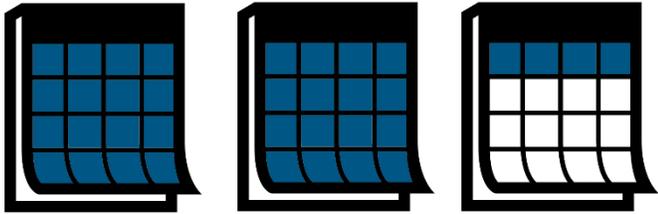

- **90% of teachers** say that the tools are effective in providing curricular resources for the Common Core State Standards
- **80% of teachers** say that the tools support students' college readiness
- **80% of teachers** report that the tools help raise their expectations for the level of work their students are capable of
- **80% of teachers** agree that LDC and MDC are effective in encouraging the use of formative assessment to identify and act on students' strengths and weaknesses

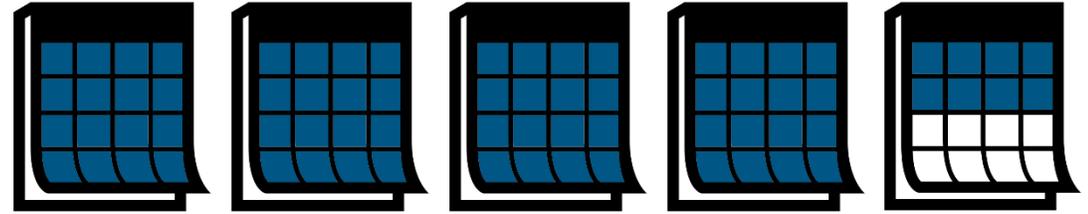

**Literacy Design
Collaborative**

Encouraging Early Results

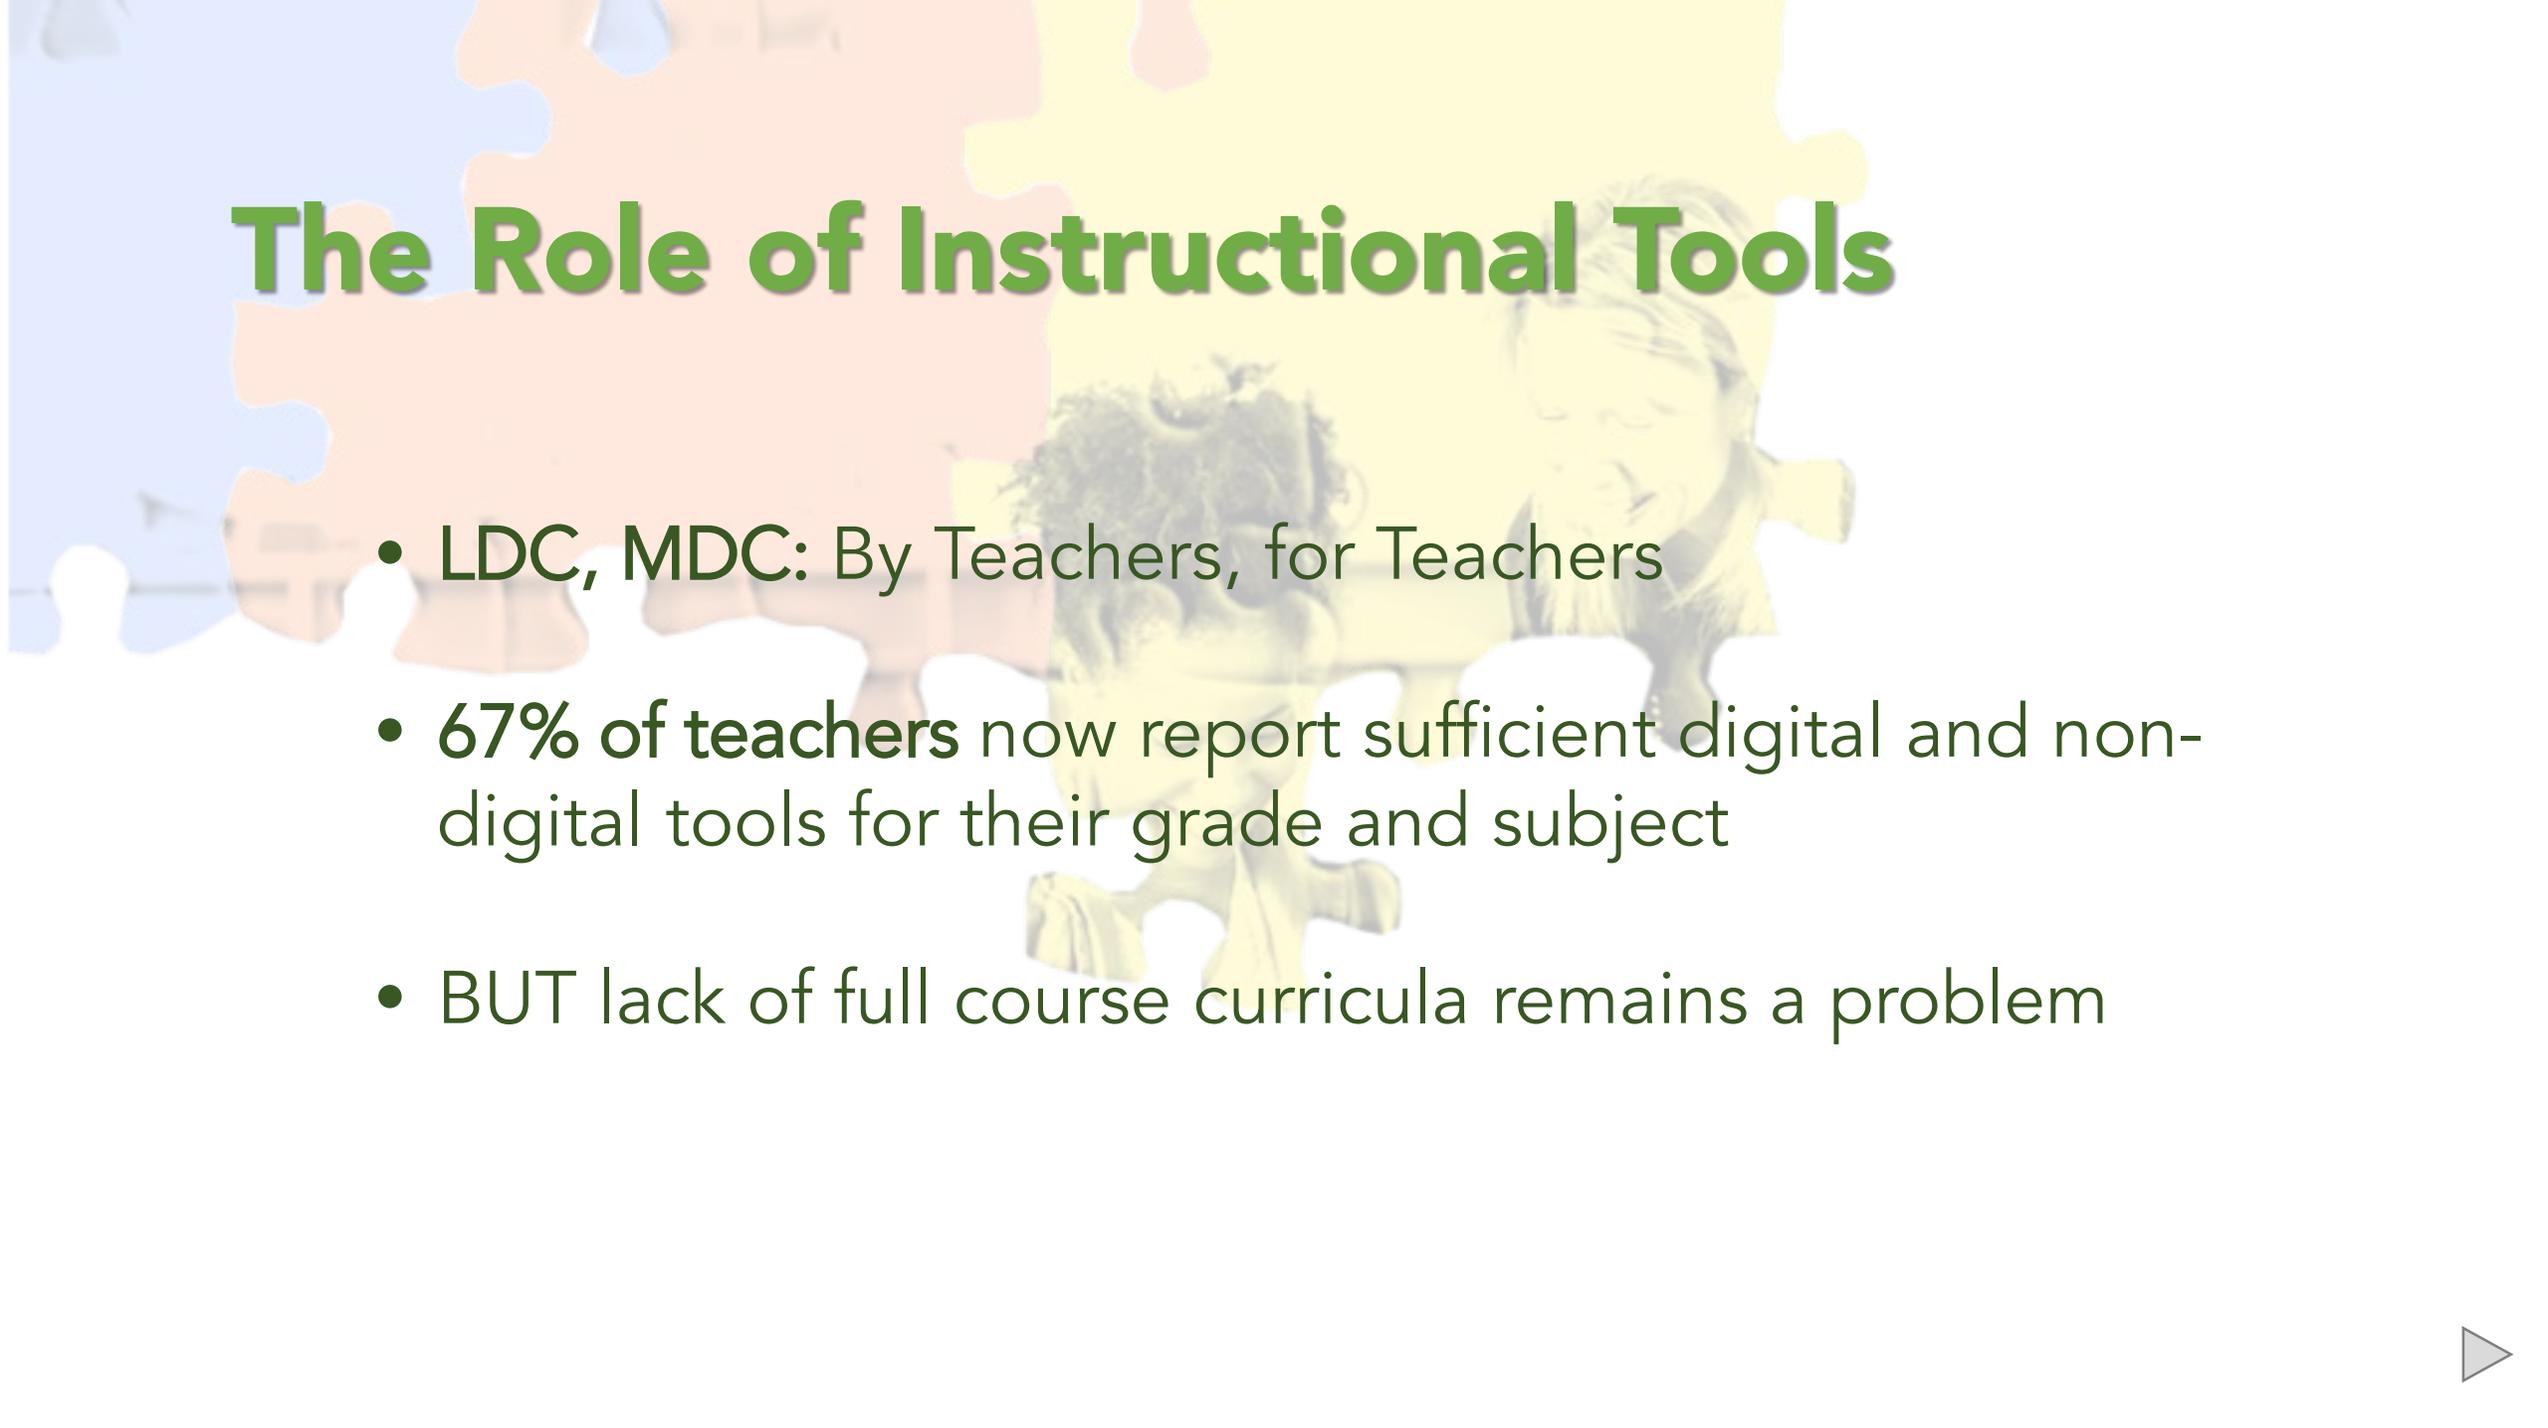

Students in LDC classrooms gained, on average, an **additional 2.2 months of learning for reading** compared to a matched comparison group.

Students in MDC classrooms gained on average, an **additional 4.6 months of learning in math** compared to a matched comparison group.

The Role of Instructional Tools

The background of the slide features a faded image of a teacher and a young student. The teacher, on the right, is smiling and looking down at the student. The student, on the left, is also smiling and looking towards the teacher. The image is overlaid with several large, semi-transparent puzzle pieces in shades of blue, orange, and yellow, suggesting a theme of education or problem-solving.

- LDC, MDC: By Teachers, for Teachers
- 67% of teachers now report sufficient digital and non-digital tools for their grade and subject
- BUT lack of full course curricula remains a problem

Putting It All Together!

The Next Challenge: Professional Learning

Nobody Knows Teaching Like
TEACHERS

Map of Teacher Online Discourse

1 Jan 2014 – 6 May 2014

**10 discrete studies with
over 30K teachers**

10 focus groups

**One study that looked at
online conversation**

TEACHER AS
LEARNER

PROFESSIONAL
RESPECT

NEW ROLES FOR
TEACHERS

We believe no one knows teaching like teachers

We envision
a profession where all teachers are connected
to professional communities that improve
their practice

We work to
build
teacher-to-teacher community

Theory
of Action

If we

Decrease
isolation

Reduce
the hunt

Celebrate & elevate the
profession

Cultivate teacher leaders

Then

Teachers' attitudes, beliefs, and behaviors about their practice and profession will advance. Teaching and learning will improve.
